Wifi for employees and students
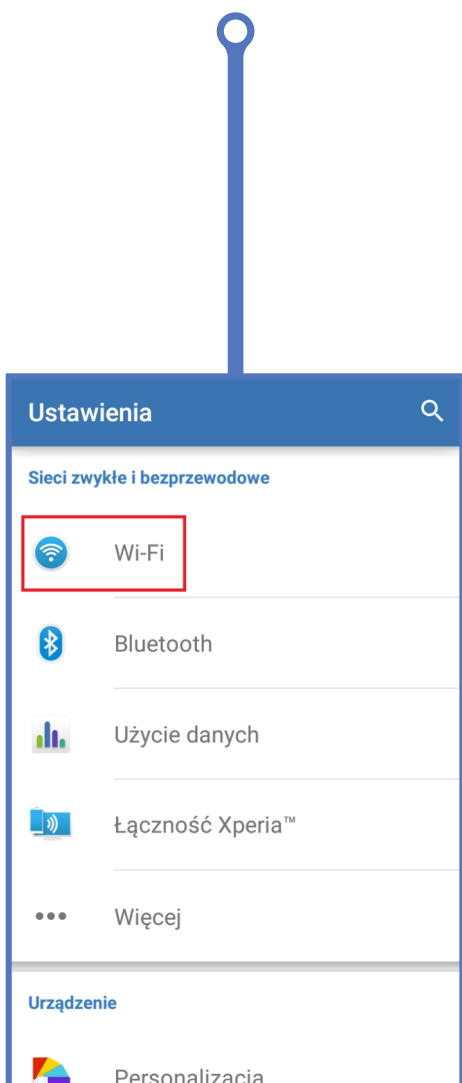

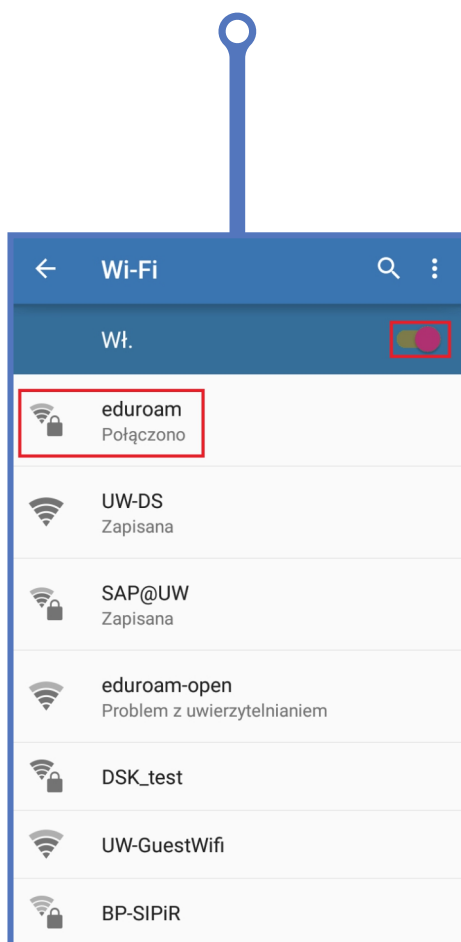

Eduroam (Edu-cation roam-ing) is a world-wide project to provide wireless access to students, researchers and university staff. These users have wireless internet access in all participating organisations, without the need to reconfigure their devices.

Step by step guide

1.On the Settings tab, select Wi-Fi

2. After making sure that the Wi-Fi network is turned on, select the eduroam profile

3.In the eduroam profile settings window, click "Delete"
